Course Descriptions

Automotive Technology: Learn the basics of auto mechanic repair & maintenance. Students will learn to diagnose and repair a wide variety of automobiles. Students will also learn preventative maintenance. ***Opportunity to earn dual credit with KCC, JJC & Prairie State at no additional cost.***

Child Development/Preschool: Training focused on professions dealing with child care and teaching. Students will obtain knowledge of basic principles of child growth/development with special emphasis on preschool age children. Students will be engaged in hands-on teaching with 3, 4, and 5 year olds. Students will be required to have a 2-Step TB Test at their own expense by **August 15, 2021**. ***Opportunity available to earn their Level 1 Early Childhood Education Credential from Gateways to Opportunity. Dual Credit Opportunity for second- year students at KCC or Prairie State.***

C.N.A. Training: Students can become a CNA (Certified Nurse Assistant), following successful completion of this program taught by Registered Nurses (RN's). Program includes theory; accompanied by 2-days per week in a clinical setting. Those who qualify will take the CNA Certification exam in May. Students will be required to have a 2-Step TB Test at their own expense by **August 15, 2021**. **Dual credit opportunities with KCC at no extra cost.**

Computer Technology: Instruction and hands-on experience repairing or replacing faulty mechanical and/or electronic parts, giving technical advice on ways to keep equipment in good operating condition, moving on in year two to setting up and configuring network services such as TCP/IP, DHCP, DNS, VPN. ***Opportunity to be A+ Certified and to earn dual credit at JJC and Prairie State at no extra cost.***

Construction Technology: Opportunity to participate in the different phases of residential construction. Students construct an actual home on-site and are involved in all phases of home construction. The program is designed as pre-apprentice training and helps the student decide the trade or craft in which they want to serve an apprenticeship. ***Opportunity to become OSHA 10 Certified and potential for dual credit at KCC at no extra cost.***

Cosmetology: Provides all the training necessary to become a **licensed cosmetologist**. Students will have the opportunity to acquire skills needed to work with customers in **KACC's full-service salon**. ***Successful students are well prepared to take their cosmetology license exam following this program and go right into the workforce.***

Drafting + 3D Design: Learn the fundamentals of design used by architects and engineers, and how drafting aids the process. Student will learn both manual drafting tools and computer aided drafting (CAD). Access to professional software (Google *Sketch Up*, *AutoCAD*, *Solid Works* and *Revit*). Second-year students will be given an opportunity to specialize in either on an architectural or the engineering drafting area with potential for job shadow and intern. ***Dual Credit opportunity with Kankakee Community College at no extra cost.***

Fire Rescue: Follows the State of Illinois Fire Marshall's Office Division of Standards for entry level in the fire and rescue field. Students will learn the basics of the fire service how to use self-contained breathing apparatus, ropes and knots, ladders and hoses. Students will be exposed to simulated fire conditions under a safe environment and to do a search and rescue, auto extrication, and how to safely remove victims of automobile crashes. Students will also have an opportunity to undergo Emergency Medical Responder (EMR) Level 1 Training for an opportunity to qualify to sit for their EMR Certification Examination (Additional fee for exam at student's expense.)

Law Enforcement: This two-year program provides students a basic introduction to all facets of law enforcement. Students gain a working knowledge of law enforcement procedures and activities that will enhance their skills on the community college and university levels. **Dual credit opportunity with Kankakee Community College at no extra cost.**

Medical Terminology and Skill Training: This college-level medical terminology course also offers training in CPR and use of an AED to become First Aide Certified. Students who earned their C.N.A. have potential for an internship program at a local health care facility. **Dual credit opportunities with Kankakee Community College and Prairie State at no extra cost.**

Multimedia Video Production: This program will provide the opportunity for students to develop the skills to create multimedia and video productions. Camera techniques, Scriptwriting, Podcasting, Digital Video editing, Storyboarding, Classroom Presentations, these are just a few of the skills that will be covered.

Welding: The first year will include laboratory experience in oxy-acetylene, shielded metal arc, and gas metal arc welding, oxy-fuel semi-automatic and plasma cutting, weld testing, braze welding, and preparing for/and taking weld tests. The second year will be an in-depth study of the above processes including blueprint reading for welders, welding symbols, weld testing and inspection, air carbon arc gouging, and introduction to pipe welding. **Dual Credit opportunity with Kankakee Community College at no extra cost. Opportunity to earn American Welding Society's S.E.N.S.E. Level 1 Certification.**
